

Let's make a skeleton mask to wear!

What you will need:

- Skeleton mask template (page 2)
- Scissors
- String/elastic string

Print on cardstock or thick paper for structural durability.

1

Step 1

Print and cut out the skeleton mask template on page 2.
Do not forget to cut the **x** on the side tabs! Fold the tabs in half in order to cut them more easily.

2

Step 2

Loop your string through the **x** shaped cuts.

3

Step 3

Fit the mask to your head before tying the string.
Cut off the excess string.
